High-Converting Google Ads Landing Pages

Two Dedicated Landing Pages

PRD 1 — Sector 32, Gurgaon

PRD 2 — Golf Course Extension Road, Gurgaon

Built on Next.js 14 | Tailwind CSS | Vercel Edge CDN

Version 1.0 – March 2026 – Confidential

SHARED SPECIFICATIONS — Applies to Both Landing Pages

S1. Technology Stack

Both landing pages must be built on a stack that delivers sub-2-second load times and top-tier Core Web Vitals scores across all devices. The following stack is recommended based on proven performance in real estate and B2B lead generation contexts.

Layer	Technology	Rationale
Framework	Next.js 14 (App Router)	Static Site Generation (SSG) for instant page loads. Built-in image optimization, lazy loading, font preloading. React ecosystem for component reuse across locations.
Styling	Tailwind CSS v3	Utility-first CSS. Zero runtime overhead. CSS purging eliminates unused styles. Pixel-perfect implementation of AIHP brand system with custom theme config.
Hosting / CDN	Vercel (Edge Network)	Global edge CDN across 100+ PoPs. Automatic HTTPS. ISR (Incremental Static Regeneration) for form updates without redeploy. TTFB consistently under 50ms.
Images	Next.js Image Component + WebP/AVIF	Automatic format conversion (WebP/AVIF saves 30–50% vs JPEG). Responsive srcsets. Native lazy loading. Eliminates LCP and CLS issues from unoptimized images.
Fonts	Google Fonts (next/font) or self-hosted	Use next/font to self-host fonts. Eliminates render-blocking, prevents layout shift (CLS = 0), and removes third-party font DNS lookups.
Forms & Backend	React Hook Form + Next.js API Routes	React Hook Form adds zero external deps, validates on the client side before API call. API route connects to CRM (Hubspot/Salesforce/Sheets). No full-page reload on submit.
CRM Integration	HubSpot Forms API or Webhook	Lead submitted via API route → HubSpot contact created automatically → assigned to sales team → instant email notification. If HubSpot not in use, fallback to Google Sheets via Zapier.

Analytics	Google Tag Manager + GA4	GTM handles all tags. GA4 tracks micro and macro conversions. Enhanced conversions for Google Ads attribution. Server-side tagging optional for privacy compliance.
Chat / WhatsApp	Tawk.to or WATI WhatsApp Widget	Load the widget as a deferred (async) script to prevent it from affecting LCP. Critical for Indian B2B market where WhatsApp is the preferred initial contact channel.
Deployment	Git → GitHub → Vercel (CI/CD)	Every commit auto-deploys to staging. Preview URLs for QA. One-click promote to production. Automatic rollback on error.

 DO NOT use WordPress, page builders (Elementor, WPBakery), or heavy JavaScript frameworks (Angular, unoptimized Vue) for these pages.

WordPress plugins (sliders, popups, form builders) add 200–800ms of avoidable load time and are the primary cause of poor Core Web Vitals in real estate landing pages.

If the existing AIHP site is on WordPress, build these landing pages as standalone Next.js apps on a subdomain (e.g. sector-32.aihp.in) — exactly as the Udyog Vihar page is done.

S2. Core Web Vitals Targets

Google uses Core Web Vitals as a ranking signal AND as a Quality Score factor for Google Ads. Pages that fail these thresholds cost more per click and show lower in search results.

Metric	Full Name	Google Threshold	Our Target	Measures
LCP	Largest Contentful Paint	< 2.5 sec (Good)	**< 1.8 sec**	How fast main image/hero loads
INP	Interaction to Next Paint	< 200ms (Good)	**< 150ms**	Form field & button responsiveness
CLS	Cumulative Layout Shift	< 0.1 (Good)	**< 0.05**	Page stability while loading
FCP	First Contentful Paint	< 1.8 sec	**< 1.2 sec**	First visible content
TTFB	Time to First Byte	< 800ms	**< 100ms**	Server response speed (Vercel Edge)

PageSpeed Score	Google PageSpeed Insights	> 90 (Good)	**> 95 Mobile & Desktop**	Overall performance grade

Testing tools: Google PageSpeed Insights, Lighthouse CI (automated in GitHub Actions), WebPageTest.org, Chrome DevTools. Run tests on both 4G mobile and desktop before launch.

S3. Brand Design System

All visual decisions must reference the AIHP Refined Color Palette. No other colors may be introduced without written approval.

Color Name	Hex Code	Usage in Landing Page
Deep Burgundy	#8B1212	Primary CTAs, H-tags, key accents
Navy Ink	#051622	Navigation, section headers, footers
Muted Teal	#128AA0	Secondary CTAs, links, chat widget
Pure White	#FFFFFF	Card backgrounds, CTA text contrast
Almost White	#F9FAFB	Page background, subtle section fills
Modern Beige	#F0E8E0	Warm section backgrounds, trust strips
Navy-Grey	#1A2B47	Body text, paragraphs, descriptions
Cool Grey	#6B7280	Metadata, labels, secondary text
Slate Grey	#5A7C8C	Dividers, inactive states, subtle accents

Typography

Element	Specification	Color
Hero Headline (H1)	48–58px, 700 weight, tight line-height 1.1	Deep Burgundy (#8B1212)
Sub-headline (H2)	28–36px, 600 weight, line-height 1.3	Navy Ink (#051622)
Section Title (H3)	22–26px, 600 weight	Navy Ink (#051622) or Deep Burgundy
Body Text	16–18px, 400 weight, line-height 1.6	Navy-Grey (#1A2B47)
Labels & Metadata	13–14px, 500 weight, uppercase	Cool Grey (#6B7280)
CTA Button Text	16–18px, 700 weight	Pure White on Deep Burgundy background
Font Family	Inter (primary) or DM Sans	Load via next/font from Google Fonts. Fallback: system-ui, sans-serif

Spacing & Layout

Element	Specification

Max Content Width	1280px centered, 24px horizontal padding on mobile
Section Vertical Padding	80px desktop / 48px mobile (Tailwind: py-20 md:py-10)
CTA Button	Height 52px, border-radius 8px, padding 16px 32px, hover: darken 10%
Form Card	White card, border-radius 16px, box-shadow md, padding 32px, max-width 460px
Input Fields	Height 48px, border 1px Slate Grey, border-radius 8px, focus ring Muted Teal
Mobile Breakpoint	< 768px: single column layout. Form stacks below hero copy. Sticky CTA bar appears at bottom of viewport.

S4. High-Conversion Form Specification

The lead capture form is the single most important conversion element. Both pages must use an identical 2-step form design, modelled after the Udyog Vihar page (udyog-vihar.aihp.in) which is the benchmark.

Why 2-Step Form?

A 2-step form reduces perceived commitment. Once a user completes Step 1 (Name, Email, Phone), the sunk cost effect makes them far more likely to complete Step 2. This reduces drop-off by 30–50% compared to showing all fields at once.

Step	Fields	Validation	UX Note
Step 1 of 2	Full Name * Work Email * Phone Number * CTA: “Next →” (Burgundy button)	Name: min 2 chars Email: valid format + no personal emails (optional) Phone: 10-digit Indian mobile validation Auto-detect country code	Progress bar 50% shown. No optional fields on Step 1.
Step 2 of 2	Company Name * No. of Workstations * (dropdown) • 20–50 seats • 51–100 seats • 101–250 seats • 251–500 seats • 500+ seats CTA: “Get Your Custom Quote”	Company: min 2 chars Workstations: required selection Pre-fill Step 1 data in hidden fields Submit to API + CRM	Progress bar 100%. Button color: Burgundy. Spinner on submit.

Trust Elements Around the Form

Form Title	"Get Your Custom Quote" — 24px bold, Navy Ink. Not “Contact Us” or “Get In Touch”.
Sub-title	"Office space tailored to your needs. We’ll call within 24 hours."
Privacy Note	Below submit button: “We’ll call only about office options — no spam.” — 12px Cool Grey with lock icon □
Response Promise	Below form: “⚡ Our team responds within 24 hours” in Muted Teal

Thank You State	Do not redirect to a new page. Show inline success: "✓ Request received! We'll call you within 24 hours." in green. Fire conversion tag here.
Mobile Sticky CTA	On mobile, show a sticky bar at bottom: "Get Your Quote →" (Burgundy) + "Call Now" (Teal). Anchors to form or click-to-call.

Post-Submit Flow

- Form submitted → API Route fires → data written to HubSpot (or Google Sheets as fallback)
- Google Ads conversion tag fires via GTM (dataLayer push on Step 2 submit)
- Lead auto-assigned to sales rep. Email + WhatsApp notification sent within 30 seconds
- Thank you message shows inline. Page does NOT redirect (prevents losing form data on back button)
- Lead is tagged with source: "Goog-Ads" + location: "Sector-32" or "Golf-Course-Ext" for CRM filtering

PRD 1 — Sector 32, Gurgaon Landing Page

1.1 Overview & Objective

Page Name	Office Space for Rent in Sector 32, Gurgaon — AIHP
URL / Domain	**sector-32.aihp.in (recommended subdomain, matching Udyog Vihar pattern)**
Google Ads Campaign	Ad Set 2 — Sector 32 | See AIHP Google Ads Campaign Brief v2.0
Primary Goal	Capture qualified leads from high-intent searchers looking for office space in Sector 32 Gurgaon. Target: 10–18% conversion rate.
Seat Range	**20 workstations (minimum) to 500+ workstations. All copy must reflect this range.**
Properties Featured	AIHP Broadway (Sector 32), AIHP Skyline (NH8, Sector 32), AIHP Executive Centre (Sector 32)
Key Nearby Landmarks	NH8 National Highway, Medanta Hospital, HUDA City Centre Metro (10 min), Sector 32 industrial hub

1.2 Page Architecture — Section-by-Section Wireframe

The page must have NO top navigation bar and NO footer links. Remove all exit points. One goal: lead capture. Use the Udyog Vihar page (udyog-vihar.aihp.in) as the gold standard reference.

#	Section Name	Content Description	Background	CTA?
01	**HERO (Above the Fold)**	Full-viewport hero. Left: H1 headline, sub-copy, 3 trust badge pills. Right: 2-step lead form card. Background: high-res Sector 32 office photo with dark overlay.	Photo + overlay	YES — Form
02	**TRUST BAR**	Horizontal strip: 4M sq ft | 500+ Clients | 12 Years Experience | 20–500+ Seats. Icon + stat + label. Fast-reading social proof.	Modern Beige	NO
03	**PROPERTY SHOWCASE**	Section title: “Office for Rent in Sector 32”. Cards for AIHP Broadway, AIHP Skyline, AIHP Executive Centre. Each card: photo, property name, location	Almost White	Soft CTA

		pin, “View Details” (internal anchor, no external link).		
04	**TRUSTED BY**	Section title: “Trusted by Industry Leaders”. Sub: “12 years | 500+ clients | 4M sq ft”. Logo grid: AnandRathi, OLX, ArcelorMittal, Dentsu.	Pure White	NO
05	**3-STEP PROCESS**	Timeline visual: Day 1 → Design Kick-off | Days 2–59 → Approval & Build | Day 60 → Move-in Day. Reassures leads that moving in is fast and hassle-free.	Modern Beige	NO
06	**TESTIMONIALS**	3 client cards. Each: quote, avatar photo, full name, job title, company. Use real clients relevant to Sector 32 if available, otherwise use existing testimonials.	Almost White	NO
07	**PREMIUM FEATURES**	4 feature tiles: Zero Capital Expenditure | Prime Sector 32 Location | 360° Facility Management | Custom Brand Design. Icon + title + 1-line description.	Pure White	NO
08	**LOCATION BENEFITS**	Left: bullet list of Sector 32 advantages (NH8 proximity, Medanta nearby, metro connectivity, corporate hub). Right: embedded Google Map pin on Sector 32.	Almost White	NO
09	**SECONDARY CTA FORM**	Full-width section. Title: “Need Your Tailored, Fully Serviced Office in Sector 32?”. Sub: “20 to 500+ seats. Zero capex. Move-in ready in 60 days.”. Same 2-step form (cloned). Dark background.	Navy Ink	YES — Form
10	**MINIMAL FOOTER**	Logo, phone number, email, address. Copyright only. NO navigation links, NO social icons, NO internal links.	Navy Ink	Call btn

1.3 Section-by-Section Copy Specification

All copy below is aligned with Ad Set 2 from the AIHP Google Ads Campaign Brief v2.0. Headlines mirror exact Google Ads headlines to maximise Quality Score and message consistency.

Section 01 — HERO

Copy Rule: The H1 must contain the exact keyword the ad targets. This is critical for Google Ads Quality Score (Ad Relevance component).

H1 mirrors Google Ads Headline 13 from Ad Set 2: “Sector 32 Office for Rent”

Element	Copy
H1 Headline	**Office Space for Rent in Sector 32, Gurgaon**
Sub-headline	AIHP delivers fully managed, brand-ready workspaces near NH8 & Medanta — move-in ready in 60 days, zero capital expenditure.
Trust Badge 1	□ 4M Sq Ft Delivered
Trust Badge 2	□ 500+ Clients
Trust Badge 3	□ 12 Years Experience
Hero Image	High-res photo of AIHP Skyline or AIHP Broadway exterior / premium interior. Dark overlay 50% opacity. WebP format, min 1920px width, optimised to < 200KB via Next/Image.
Form Card Title	**Get Your Custom Quote (Step 1 of 2)**
Form Sub	Office space tailored to your needs. We’ll call within 24 hours.

Section 02 — TRUST BAR

Tile 1	Tile 2	Tile 3	Tile 4
4M+ **Sq Ft Delivered**	**500+** **Happy Clients**	**12** **Years Experience**	**20 – 500+** **Seats Available**

Section 03 — PROPERTY SHOWCASE

Section H2	**Office for Rent in Sector 32**
Section Sub	AIHP offers premium, fully managed workspace towers with world-class amenities across Sector 32, Gurgaon.
Card 1	AIHP Broadway □ Sector 32, Gurgaon Premium build-to-suit corporate offices. Custom interiors, 360° facility management.
Card 2	AIHP Skyline □ NH8, Sector 32 High-rise premium workspace on NH8. Exceptional NH8 highway visibility and connectivity.

Card 3	AIHP Executive Centre □ Sector 32, Gurgaon Enterprise-grade managed offices. Designed for 20 to 500+ seat requirements.

Section 05 — 3-STEP PROCESS

Step 1 — Day 1	Step 2 — Days 2–59	Step 3 — Day 60
Design Kick-off Custom layouts and finishes designed to reflect your brand identity. You approve the design.	Approval & Build Quick approvals and expert construction by AIHP's certified teams. Zero disruption to you.	Move-in Day Walk into your fully furnished, technology-ready office space in Sector 32. Your team, day one.

Section 06 — TESTIMONIALS

Section H2	**What Our Clients Say**
Section Sub	Real experiences from business leaders who chose AIHP for their Gurgaon offices.
Testimonial Guidance	Use at least one testimonial from an Anand Rathi, ArcelorMittal Nippon Steel, or ProcDNA spokesperson (existing testimonials from Udyog Vihar page). If Sector 32-specific testimonials are available, prioritise those. Format: quote in italics — Name, Title, Company. Include real headshot photo (WebP, 80x80px circle avatar).

Section 07 — PREMIUM FEATURES

Feature 1	Feature 2	Feature 3	Feature 4
□ Zero Capital Expenditure Maximise resources without any upfront construction costs.	□ Prime Sector 32 Location Near NH8, Medanta & metro. Strategically positioned for visibility.	□ 360° Facility Management All-inclusive staff & facility management. You focus on business.	□ Customised Design Tailored office interiors to suit your brand and team culture.

Section 08 — LOCATION BENEFITS (Sector 32)

Section H2	**Why Sector 32, Gurgaon?**
Bullet 1	✅On NH8 National Highway — seamless access to Delhi, IGI Airport & all of Gurgaon
Bullet 2	✅10 minutes from HUDA City Centre Metro Station

Bullet 3	✅Adjacent to Medanta — The Medicity Hospital (a key landmark for business navigation)
Bullet 4	✅Established corporate hub with multinational companies, banks & tech firms
Bullet 5	✅Premium retail, hospitality & dining options within 5 minutes
Map Embed	Google Maps iframe centred on Sector 32, Gurgaon. Pins for AIHP Broadway, AIHP Skyline, AIHP Executive Centre. Lazy load the iframe to avoid CLS.

Section 09 — SECONDARY CTA FORM

Section H2	
Sub-copy	
Background	Navy Ink (#051622). White text. Form card in Pure White (#FFFFFF).

1.4 SEO Metadata

Page Title	Office Space for Rent in Sector 32 Gurgaon | AIHP Managed Workspaces (61 chars)
Meta Description	Premium managed office spaces in Sector 32, Gurgaon. 20 to 500+ seats. Zero capex, move-in ready in 60 days. Book a free site visit with AIHP today. (152 chars)
OG Title	Office Space for Rent in Sector 32 Gurgaon | AIHP
OG Image	1200x630px premium office interior photo. AIHP branding overlay. File: og-sector-32.jpg
Canonical URL	https://sector-32.aihp.in/
Schema Markup	LocalBusiness + RealEstateAgent schema. Include address, geo-coordinates, telephone, areaServed: Sector 32 Gurgaon.

1.5 Conversion Tracking Setup (Sector 32)

Conversion Event	Trigger	Google Ads Tag
Step 2 Form Submit (Primary)	dataLayer.push on form success	Conversion Action: 'Sector32-LeadForm' | Value: ₹600
Lead Form Extension Submit	Google Ads native tracking	Auto-tracked by Google Ads

Click-to-Call	Click on tel: link	Conversion Action: 'Sector32-Call' | Value: ₹600
WhatsApp Click	Click on WhatsApp widget	GA4 event only (secondary)

1.6 Acceptance Criteria (Sector 32)

1. PageSpeed Insights mobile score ≥ 95 and desktop score ≥ 98
2. CLS = 0 (no layout shift at all) on first load on both 4G and WiFi
3. LCP ≤ 1.8 seconds on 4G mobile measured via WebPageTest
4. 2-step form validates and submits correctly, lead appears in HubSpot/CRM within 30 seconds
5. Conversion tag fires on Step 2 submit, confirmed in Google Tag Assistant
6. Google Ads Quality Score for "office space for rent in sector 32 gurgaon" reaches 7+ within 2 weeks of launch
7. Page passes Google's Mobile-Friendly Test with no issues
8. All images load as WebP, confirmed via Chrome DevTools Network tab
9. No navigation bar or footer links visible at any viewport width
10. Sticky mobile CTA bar appears below 768px and links correctly to form anchor and click-to-call
